

# Is It Macro or Micro? Answers English    French

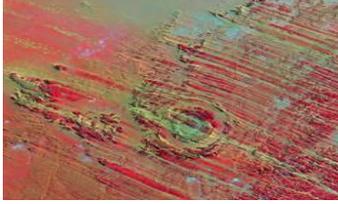

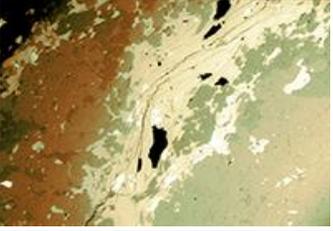

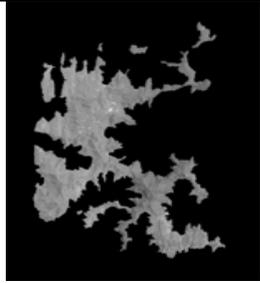

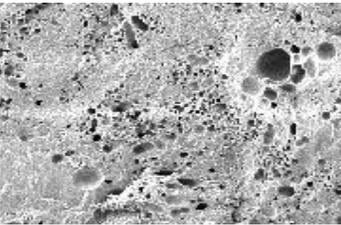

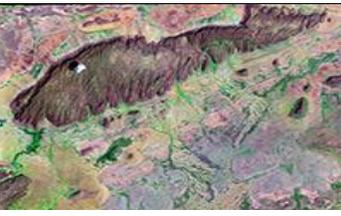

1.		<p><b>MACRO</b> – Approximately 1.4 km by 1 km  <i>Environ 1.4 et 1 km</i>            Deepwater Horizon Oil Spill. <i>déversement de pétrole</i>            GeoEye-1 Satellite image, taken: April 29, 2010. <i>Image satellite</i>            Data from Satellite Image Corporation.</p> <p style="text-align: right;">Gulf of Mexico</p>
2.		<p><b>MICRO</b> – Width of image approximately 500 μm (microns)  <i>Largeur de l'image environ 500 μm</i>            Skin of a Northern Leopard Frog. <i>Peau d'une Grenouille Léopard</i>            Colorized scanning electron microscope image.  <i>Microscope électronique à balayage</i>            Imaged and processed by P. Kelly.</p>
3.		<p><b>MACRO</b> – Approximately 56 km by 27 km  <i>Environ 56 et 27 km</i>            Dasht-e Kavir Desert. <i>Désert</i>. Landsat ETM image. The redder the color the warmer the earth. <i>Plus la couleur est rouge, plus la terre est chaude</i>.            Image taken: August 19, 2005. <i>Image satellite</i>            Data from Global Land Cover Facility, processed by S. Young.</p> <p style="text-align: right;">Iran</p>
4.		<p><b>MICRO</b> – Width of image approximately 2 mm  <i>Largeur de l'image environ 2 mm</i>            Threads of a small bolt. <i>Fils d'une petite vis</i>            Scanning electron microscope image. <i>Microscope électronique à balayage</i>            Imaged and processed by P. Kelly.</p>
5.		<p><b>MACRO</b> – Approximately 100 km by 70 km  <i>Environ 100 et 70 km</i>            Landsat ETM image of the Ganges-Brahmaputra Delta. <i>Delta de la rivière</i>            Image taken on November 15, 1999. <i>Image satellite</i>            Data from Global Land Cover Facility, processed by S. Young.</p> <p style="text-align: right;">West Bengal, India</p>
6.		<p><b>MICRO</b> – Width of image approximately 5 mm  <i>Largeur de l'image environ 5 mm</i>            Dermal armor of an Atlantic Sturgeon. <i>Armure dermique d'un esturgeon noir</i>. Scanning electron microscope image.  <i>Microscope électronique à balayage</i>            Imaged and processed by P. Kelly.</p>
7.		<p><b>MACRO</b> – Approximately 43 km by 24 km  <i>Environ 43 et 24 km</i>            Lut Desert region. <i>Désert</i>.            Landsat ETM bands 742 RGB. Image taken: May 8, 2001. <i>Image satellite</i>            Data from Global Land Cover Facility, processed by S. Young.</p> <p style="text-align: right;">Iran</p>

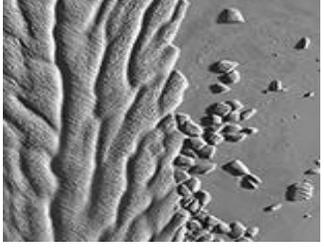

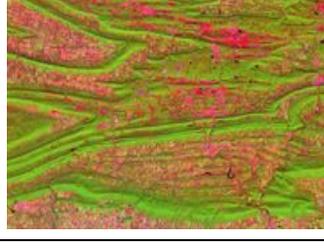

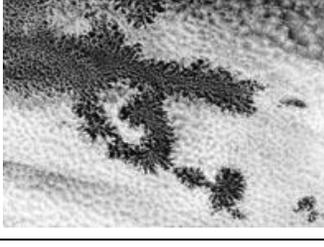

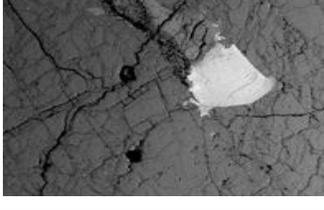

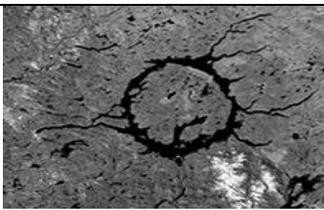

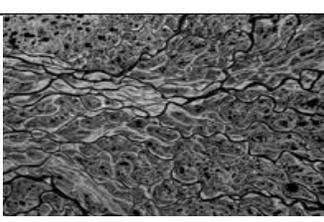

8.		<p><b>MICRO</b> – Width of image approximately 300 µm (microns)  <b>Largeur de l'image environ 300 µm</b>  Emerging eye of a larval Zebrafish. <b>Oeil émergent d'un poisson zèbre larvaire</b>. Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
9.		<p><b>MICRO</b> – Width of image approximately 150 µm (microns)  <b>Largeur de l'image environ 150 µm</b>  Surface of the eggshell of a Corn Snake. <b>Surface de la coquille d'œuf d'un serpent de maïs</b>. Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
10.		<p><b>MICRO</b> –Width of image approximately 500 µm (microns)  <b>Largeur de l'image environ 500 µm</b>  Surface of a rotted human tooth. <b>Surface d'une dent humaine pourrie</b>  Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
11.		<p><b>MICRO</b> – Width of image approximately 300 µm.  <b>Largeur de l'image environ 300 µm</b>  Skin of a Leopard Frog. Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
12.		<p><b>MACRO</b> – Approximately 15 km by 12 km <span style="float: right;">Eastern Bolivia</span>  <b>Environ 15 et 12 km</b>  Deforestation – <b>Déforestation</b> - Digital photograph taken by astronauts from the International Space Station on April 16, 2001.  <b>Photographie numérique couleur normale - prises par des astronautes de la Station spatiale internationale</b> Image provided by the Earth Sciences and Image Analysis Laboratory at Johnson Space Center.</p>
13.		<p><b>MACRO</b> – Approximately 1.4 km by 1 km <span style="float: right;">China</span>  <b>Environ 1.4 et 1 km</b>  White lines in the Gobi Desert. <b>Lignes blanches dans le désert de Gobi</b>  IKONOS panchromatic satellite image taken July 27, 2010. <b>Image satellite</b>  Data from Satellite Image Corporation.</p>
14.		<p><b>MACRO</b> – Approximately 1.2 km by 1 km <span style="float: right;">Ayers Rock - Australia</span>  <b>Environ 1.2 et 1 km</b>  <b>Affleurement rocheux</b>. Ikonos satellite image. Image taken in 2010. <b>Image satellite</b>  Data from Satellite Image Corporation.</p>

15.		<p><b>MACRO</b> – 42 km by 27 km      Rub' al Khali Desert; Arabian Peninsula  <b>Environ 42 et 27 km</b>      ASTER satellite image taken 2 December, 2005. <b>Image satellite</b>  <b>Désert.</b></p> <p>Data from NASA's Jet Propulsion Laboratory</p>
16.		<p><b>MICRO</b> – Width of image approximately 5 mm  <b>Largeur de l'image environ 5 mm</b>      Polished mineral surface. <b>Surface minérale polie.</b>      Scanning electron microscope image.  <b>Microscope électronique à balayage</b>      Imaged and processed by P. Kelly.</p>
17.		<p><b>MICRO</b> – Width of image approximately 2 mm  <b>Largeur de l'image environ 2 mm</b>      Flight feather of a Common Grackle. <b>Plume de vol d'un quiscal bronze.</b>      Scanning electron microscope image.  <b>Microscope électronique à balayage</b>      Imaged and processed by P. Kelly.</p>
18.		<p><b>MICRO</b> – Width of image approximately 2 mm  <b>Largeur de l'image environ 2 mm</b>      Molar of a Whitetail Deer. <b>Molaire d'un cerf de Virginie</b>      Scanning electron microscope image.  <b>Microscope électronique à balayage</b>      Imaged and processed by P. Kelly.</p>
19.		<p><b>MACRO</b> – Approximately 29 km by 17 km      Antarctica  <b>Environ 29 et 17 km</b>      Melting ice. <b>La glace fondante.</b> Landsat ETM panchromatic, image taken:      February 21, 2000. <b>Image satellite</b>      Data from Global Land Cover Facility, processed by S. Young.</p>
20.		<p><b>MICRO</b> – Width of image approximately 500 μm (microns)  <b>Largeur de l'image environ 500 μm</b>      Surface of the tongue of a Northern Leopard Frog. <b>Surface de la langue</b>  <b>d'une grenouille léopard.</b> Scanning electron microscope image.  <b>Microscope électronique à balayage</b>      Imaged and processed by P. Kelly.</p>
21.		<p><b>MACRO</b> – Approximately 1400 km by 900 km      Russia  <b>Environ 1400 et 900 km</b>      Moscow - <b>Moscou la nuit</b> (brightest spot in center) and surrounding region      at night. Defense Meteorological Satellite Program (DMSP) - image from      1998. <b>Image satellite</b>      Data from NOAA Geophysical Data Center, processed by S. Young.</p>

22.		<p><b>MACRO</b> – Approximately 3 km by 2 km  <b>Environ 3 et 2 km</b></p> <p>Iceland</p> <p>Landsat ETM panchromatic image of a glacier. <b>Glacier.</b>  <b>Image satellite</b></p> <p>Data from Global Land Cover Facility, processed by S. Young.</p>
23.		<p><b>MACRO</b> – Approximately 48 km by 40 km  <b>Environ 48 et 40 km</b></p> <p>Western Australia</p> <p>Dry Salt Lakes - <b>Lacs salés secs.</b> Landsat ETM panchromatic. Image taken:  May 24, 2006. <b>Image satellite</b></p> <p>Data from Global Land Cover Facility, processed by S. Young.</p>
24.		<p><b>MICRO</b> – Width of image approximately 1 mm  <b>Largeur de l'image environ 1 mm</b></p> <p>Skeleton of a coral. <b>Squelette d'un corail.</b> Scanning electron microscope image.  <b>Microscope électronique à balayage</b></p> <p>Imaged and processed by P. Kelly.</p>
25.		<p><b>MICRO</b> – Width of image approximately 100 µm (microns)  <b>Largeur de l'image environ 100 µm</b></p> <p>Inner wall of the small intestine of a Northern Leopard Frog. <b>Paroi interne de l'intestin grêle d'une grenouille léopard</b> Scanning electron microscope image.  <b>Microscope électronique à balayage</b></p> <p>Imaged and processed by P. Kelly.</p>
26.		<p><b>MICRO</b> – Width of image approximately 1.5 mm.  <b>Largeur de l'image environ 1.5 mm</b></p> <p>Dried Crystal of Sodium Chloride. <b>sel de table séché</b>  Scanning electron microscope image. <b>Microscope électronique à balayage</b></p> <p>Imaged and processed by P. Kelly.</p>
27.		<p><b>MICRO</b> – Width of image approximately 500 µm (microns)  <b>Largeur de l'image environ 500 µm</b></p> <p>Polished aluminum surface. <b>Surface en aluminium poli</b> Scanning electron microscope image.  <b>Microscope électronique à balayage</b></p> <p>Imaged and processed by P. Kelly.</p>
28.		<p><b>MACRO</b> – Approximately 18 km by 12 km  <b>Environ 18 et 12 km</b></p> <p>Sahara Desert, Algeria</p> <p>Sand dunes in Grand Erg Oriental Desert. <b>Dunes de sable dans le Grand Erg Oriental Desert.</b> Landsat TM RGB 742 image -composite from the 1990's.  <b>Image satellite</b></p> <p>data from NASA's Stennis Space Center. Image processed by S. Young.</p>

29.		<p><b>MICRO</b> – Width of image approximately 1 mm  <b>Largeur de l'image environ 1 mm</b>  Polished mineral surface. <b>Surface minérale polie.</b>  Scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
30.		<p><b>MACRO</b> – Approximately 4 km by 2 km  <b>Environ 4 et 2 km</b>  West Crater, Washington  LiDAR image of lava flows  <b>Image LiDAR des coulées de lave</b>    Data from Washington State Geological Survey</p>
31.		<p><b>MICRO</b> - Width of image approximately 150 µm (microns)  <b>Largeur de l'image environ 150 µm</b>  Polished mineral sample: Garnet (magnesium silicate). <b>Surface minérale polie. Grenat (silicate de magnésium)</b> Colorized scanning electron microscope image. <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
32.		<p><b>MICRO</b> - Width of image approximately 3 mm  <b>Largeur de l'image environ 3 mm</b>  Surface of the wing of a Blue Darner Dragonfly. <b>Surface de l'aile d'une libellule Blue Darner.</b> Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
33.		<p><b>MICRO</b> – Width of image approximately 500 µm (microns)  <b>Largeur de l'image environ 500 µm</b>  Crystal of table salt, Sodium chloride. <b>Cristal de sel de table</b>  Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
34.		<p><b>MACRO</b> – Approximately 25 km by 20 km  <b>Environ 25 et 20 km</b>  Siberian Tundra, Russia  <b>toundra sibérienne</b>  Landsat ETM bands 542 RGB - image taken: July 27, 2000. <b>Image satellite</b>    Data from Global Land Cover Facility, processed by S. Young.</p>
35.		<p><b>MACRO</b> – Approximately 18 km by 11.5 km  <b>Environ 18 et 11.5 km</b>  <b>dunes de sable</b> Sand dunes in the Erg of Bilma. Digital photograph from the International Space Station. <b>Photographie numérique couleur normale - prises par des astronautes de la Station spatiale internationale</b> Image taken 2009.  Image from NASA's International Space Station Photo Library.</p>

36.		<p><b>MACRO</b> – Approximately 80 km by 60 km. <span style="float: right;">Chad</span>  <b>Environ 80 et 60 km</b>  Landsat ETM image of desert - <b>Désert</b> - Chad North Africa. Red color indicates heat. <b>Plus la couleur est rouge, plus la terre est chaude.</b>  <b>Image satellite</b>  Raw data from Global Land Cover Facility and processed by S. Young.</p>
37.		<p><b>MICRO</b> – Width of image approximately 5 mm  <b>Largeur de l'image environ 5 mm</b>  Polished mineral surface. <b>Surface minérale polie.</b>  Colorized scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
38.		<p><b>MACRO</b> – Approximately 14 km by 14 km <span style="float: right;">China's Inner Mongolia</span>  <b>Environ 14 et 14 km</b>  Small, ground-water fed lakes in the Gobi Desert. <b>Petits lacs alimentés en eau souterraine dans le désert de Gobi.</b> <i>Proba</i> satellite (CHRIS sensor) image, taken: November 11, 2005. <b>Image satellite</b>  Data from European Space Agency, additional processing by S. Young.</p>
39		<p><b>MACRO</b> – Approximately 35 km by 26 km <span style="float: right;">Persian Gulf, Oman</span>  <b>Environ 35 et 26 km</b>  End of the Musandam peninsula. <b>Fin de la presqu'île de Musandam</b>  Landsat ETM panchromatic Band 8 (visible spectrum), image taken: May 31, 2001. <b>Image satellite</b>  Data from Global Land Cover Facility, processed by S. Young.</p>
40.		<p><b>MICRO</b> - Width of image approximately 500 μm (microns)  <b>Largeur de l'image environ 500 μm</b>  Lung tissue of a House Sparrow. <b>Tissu pulmonaire d'un moineau domestique</b>  Scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
41.		<p><b>MACRO</b> – Approximately 15 km by 12 km <span style="float: right;">Mali</span>  <b>Environ 15 et 12 km</b>  Rock Outcrop in the Haayre region of Mali. <b>Affleurement rocheux</b>  Landsat TM bands 742 RGB color composite image taken: October 8, 1986.  <b>Image satellite</b>  Data from Global Land Cover Facility, processed by S. Young.</p>

42.		<p><b>MACRO</b> – Approximately 10 km by 10 km  <b>Environ 10 et 10 km</b>  <b>East Antarctica</b>  <b>Glacier.</b> The Matusevich Glacier near the Lazarev Mountains. Image from Advanced Land Imager (ALI) September 4, 2010.  <b>Image satellite</b>  Original NASA Earth Observatory image created by Jesse Allen and Robert Simmon, NASA EO-1 team. Additional image processing by S. Young.</p>
43.		<p><b>MACRO</b> – Width of image approximately 100 Km. <b>Pennsylvania, USA</b>  <b>Largeur de l'image environ 100 km</b>  Landsat image from the 1990's, wavelengths show photosynthesis (green) and heat (red). <b>le vert montre la végétation et le rouge montre la chaleur</b>  <b>Image satellite</b>  Raw data from Global Land Cover Facility and processed by S. Young.</p>
44.		<p><b>MACRO</b> – Approximately 1100 km by 850 km <b>Eastern South Pacific</b>  <b>Environ 1100 et 850 km</b>  Cumulus clouds over the eastern South Pacific Ocean = <b>Cumulus nuages au-dessus de l'est de l'océan Pacifique Sud.</b> MODIS image, August 7, 2002.  <b>Image satellite</b>  Image created by Jacques Descloitres, MODIS Land Rapid Response Team, NASA/GSFC, additional image processing by S. Young.</p>
45.		<p><b>MICRO</b> - Width of image approximately 400 μm (microns)  <b>Largeur de l'image environ 400 μm</b>  Polished mineral sample: Galena (lead sulfide). <b>Surface minérale polie.</b>  Scanning electron microscope image.  <b>Microscope électronique à balayage</b>  Imaged and processed by P. Kelly.</p>
46.		<p><b>MACRO</b> - 176 km by 130 km <b>Quebec, Canada</b>  <b>Environ 176 et 130 km</b>  Manicouagan Crater <b>Cratère Manicouagan</b>  Landsat ETM image printed in black &amp; white, images take: June 30, 2000.  <b>Image satellite</b>  Data from Global Land Cover Facility, processed by S. Young.</p>
47.		<p><b>MACRO</b> - 74 km by 52 km <b>Lena River Delta, Siberia, Russia</b>  <b>Environ 74 et 52 km</b>  <b>Delta de la rivière.</b> Landsat ETM panchromatic Band 8 (visible spectrum), image taken: June 30, 2000. <b>Image satellite</b>  Data from Global Land Cover Facility, processed by S. Young.</p>
